

THREE GERMAN BOMBERS PREY OF CANADIANS

Continued from Page One

The death of the three men was quickly avenged. Within a few minutes three raiders came lurching over the countryside. Two remaining machines of the squadron limped away badly disabled.

One of the three was in an attempt to rescue a British Tomcat who was hit in the leg by a machine gun bullet. The British plane was running toward the hostile soldier, a high-altitude bomb burst nearby, killing the Canadian officer instantly.

Jennings and Shaw were struck down by fragments of a bomb which landed in a square. Sgt. F. McAllister, Toronto, suffered superficial neck wounds from the same blast. Two others, Ptes. E. T. Johnstone and N. W. Morris, both of Montreal, were killed behind a sand-bagged parapet 10 yards away and escaped unscathed.

THURSDAY TO GUNNER

He sent the following note to the pilot he had arranged to meet: "I am afraid my office is a bit upset and I was in a little late for the appointment."

Later he established himself in temporary quarters and hung up a sign reading "business as usual."

Sgt. W. H. Dunn and Sgt. H. Harper, both of London, Ont., paid high tribute to the marksmanship and morale of the machine-gun crews. They told of seeing tracer bullets drilling through the enemy planes but neither sought positive credit for bagging the Hun.

NAZI GUNS ON FRENCH COAST SHELL CONVOY

Continued from Page One

Most of the shells landed at the group of small merchant ships and its escort of war vessels, fell into the sea.

They came from a battery of four German guns established just east of Boulogne, France. Their brilliant flashes could be seen by observers on the cliffs here.

A few seconds after the flashes were seen, the shells burst near the ships. The German gunners changed the range and the shells fell closer to the enemy. But subsequent shells dropped between the ships and the English shore.

The explosions shook the ground on this side of the channel. Crowds began gathering on the shore to watch.

Shortly after it started, two of the British warships laid a smoke-screen to keep the Germans from spotting their targets and noting where their shells fell.

It was believed here that the gunners were getting firing range from a Nazi plane flying high in the sky.

The convoy stretched out more than a mile, sailing in close to the coasting English ships, 20 miles from the gun emplacements.

While the warships veered in and out in the smoke screen, Royal Air Force fighters suddenly appeared overhead. There were no German bombers in hand.

After a while police cleared the waterfront of all save soldiers, sailors and newspaper men.

Weather

Local Forecast

FAIR AND MODERATELY WARM

Highest temperature, 60; lowest, 45; wind, light; clouds, few.

FAIR NORTH WEATHER

SHORTAGE OF AIR GUNNERS IS REPORTED

Plenty Of Openings For
Recruits As Gunnery
With R.C.A.F.

There is no waiting this way in the R.C.A.F. as there will be applied to those desiring to enter the Royal Canadian Air Force via the air gunner route. Recruitment officials here say that they have an urgent need for air gunners, and no prospective men with full recruiting qualifications in fill this complement.

Many applications for service in the R.C.A.F. have been received, but preliminary qualifications, but all are seeking pilot, aircraftman and other positions, and not air gunner work. The need is therefore great for air gunners, and all desirous of aiding the war effort, should make application at once to the R.C.A.F. recruiting center on the fourth floor of the Provincial building.

45 BRITISH GUEST CHILDREN COMING HERE ON FRIDAY

Notification that a group of 45 British guest children will arrive in Edmonton Friday evening via C.N.R. under the government-sponsored scheme has been received by C. R. Blaine, superintendent of the child welfare branch of the provincial health department. Nine children arrived Thursday.

No definite information has been received as to whether the youngsters are going to homes of relatives or are to be placed in other homes approved on provincial inspection. Edmonton citizens are being appealed to open up 20 homes for the temporary accommodation for the party. The children will be distributed to three temporary homes until communication can be made with relatives.

Mr. Blaine emphasized the necessity of making formal application to the child welfare branch without delay in the event of residents of the city and district wishing to have children brought out to relatives.

The government-sponsored scheme, this application must be approved by the branch. This home does not apply to children making the trip without participation in the government scheme.

Shoes Stolen

Two pairs of shoes, one stolen and a box containing another pair dropped by a thief who burglarized the premises of the Quaker Store, 1026 97 street, at about 3:50 a.m. Thursday. Entry was made by forcing the rear door of the shop.

The burglary was discovered by Const. P. Shaw. Two empty shoe boxes, in addition to the one containing shoes, were also found in the lane by the officer.

ALBERTA MOTOR ASSOCIATION ROAD REPORTS

Safety Slogan: It is not fair to endanger another man's life. Drive carefully.

Thursday's road report cloudy skies are reported at most points. Main highways are in good condition. Scattered showers fell last night in the Peace River, and roads are greasy in places.

YEGGS BLAST SAFE THROUGH BUILDING ROOF

Loot Believed Small As
Farm Supply Company
Robbed

Causing an explosion so violent that portions of the structure were blown through the roof, yeggs blasted their way into a safe on the premises of MacLeod's Ltd. farm supplies, 1023 102 street early Thursday.

The safe-blowers, secured less than \$10 in cash. W. E. MacLeod, manager of the firm informed the Bulletin. The office was badly wrecked by the explosion.

We are still picking pieces of the safe out of the ceiling and walls, he said. The safe was blown into the office. Mr. MacLeod said.

Noise of the exploding nitroglycerin was heard at the same time by Constables Pataki and Ritten who were patrolling their beats. The officers notified police headquarters and a radio call was sent out to provide cars that raced to the scene of the explosion.

Smokes were pouring out of the hardware store when the police officers arrived.

Entry had been made in the building by prying open a door in the back lane.

Det. Insp. John Leslie and Det. Murdoch Murray were called and took charge of the investigation.

MAN IS HELD

A man who said he lives in Saskatoon, was held at the police station and held for questioning after being found seated in an automobile, parked near the King Edward Hotel at the intersection of 102 street and 101 street.

The man said he had been taking a young lady home from a party. He said the car was owned by a man living in Calgary.

The investigation is continuing.

Through The Mill

For attempting to assault a woman, who was held in the vice of 100 avenue and 103 street late last Tuesday night, a young man was sentenced to serve six weeks in jail. Identification proved insufficient in the case of another woman, who was held in the vice of 100 avenue and 103 street late last Tuesday night.

The woman said she was assaulted in a similar manner and secured a writ of habeas corpus on this case.

A young man, who went to the assistance of the first lady in question when he heard her scream in the darkness of the tree-lined street, was held for questioning. He was released on a \$1000 bail.

Witness said, he was in the street when he saw the woman being assaulted. He was in the street when he saw the woman being assaulted.

Varsity Students Will Be Ousted Early From Their Downy Couches

The alarm clock business should be booming in Edmonton around about September 23 when the University of Alberta opens for the 1940-41 season. The reason for this unprecedented prospect in the "wake-up" business is the fact that all Varsity students here will have to be in classes at 8 a.m. instead of the traditional "eight-thirty."

Compulsory military training regulations for all male students have necessitated this change in order that the required military instruction may be satisfactorily given during the school year, thus reduce to a minimum the length of the summer training camp.

All available university facilities have been offered to the department of military training. Laboratories and scientific equipment all have been made available for the use of the university. The military officials have been given the use of the university's power plant, some of which is a notable example of hockey gear for a drill hall.

SPORTS CANCELLED

All intercollegiate sports have been cancelled for the duration of the war and as the U. of A. will not require the services of intercollegiate sports, it is not to be played at the university this year, outdoor risks will probably be postponed.

Preliminary organization details for the new Reserve Militia unit at the university will be discussed this evening when the first class of the Regimental School, sponsored by the military officials, will be held. About 35 officers and cadets of the C.O.T.C. were in attendance and plans for the school were discussed by Lt. Col. Warren, officer commanding the C.O.T.C. school.

The Regimental School has been instituted to provide an adequate complement of instructors and officers for the new Reserve Militia unit at the University of Alberta this fall.

Lt. Col. P. S. Warren, officer commanding the Alberta contingent of the C.O.T.C. and in charge of the training of the Reserve Militia unit at the University of Alberta this fall.

AWARDING OF PRIZES ENDS FLOWER SHOW

Abbott Presents Trophies
—J. Myler Takes Big
Aggregate

Edmonton's 32nd annual flower show came to a close Wednesday night as hundreds of citizens inspected the fine array of the city's best in flowers, fruits and vegetables. Staged for the second day only were the boys and girls special exhibits and the decorated emblems and vehicles.

Feature of Wednesday's activities was the presentation of awards to the winners of the various classes. J. Myler, R.C. manager of the Edmonton Exhibition, presented the trophies.

Among the winners were J. Myler, R.C. manager of the Edmonton Exhibition, presented the trophies.

Nazi Blitz Fails To Scare Britons

While Toronto's radio is constantly a British war man scramble around the bottom of a radio, a German plane is seen at a moment of trouble, the plane is kept for a moment. Home front men are much more at ease by Brit. who, according to the rules, should be secured to death.

Looking Them Over

By Jack Kelly

Soose-ology

Incredible

Last Round Up?

It just seemed so. Some of the most interesting and amusing of the "Soose-ology" column has been the "Last Round Up?"

In this little round-up, I have tried to give you a little of the "Soose-ology" column. I have tried to give you a little of the "Soose-ology" column. I have tried to give you a little of the "Soose-ology" column.

Incredible But True

There are many things in this world which are incredible but true. One of the most incredible but true things is the fact that there are many things in this world which are incredible but true.

Trotting Battles Time

The trotting season is now in full swing. There are many things in this world which are incredible but true. One of the most incredible but true things is the fact that there are many things in this world which are incredible but true.
